INTELLIGENT TRANSIT SYSTEMS

Always the latest capabilities & features:

User interface improvements

New reporting capabilities

New public websites and mobile apps

# Active product development

A living, breathing platform, the SPOT® system you install today won't be the same solution you'll use tomorrow.

Finally, an ITS that evolves to meet your needs now ... and in the future.

At ETA Transit, we never settle for "good enough"—and we don't believe you should either. In fact, our SPOT intelligent transit system is designed to grow over time and always provide you with the latest features, upgrades, and improvements. As we tweak our software, refine the user interface, and develop new reports, we'll make sure you get those improvements—in many cases, **FREE OF CHARGE**!

▶ Subscribed features update automatically
▶ Custom report capabilities for one client are provided to all customers
▶ Updates to public-facing websites and mobile apps free to all clients
▶ Base system update and UI improvements provided at no additional cost

We always have new capabilities in active development. Sometimes these are entirely new features, and others are updated systems designed to meet changing market conditions. We make sure that you have:

▶ Versatile and industry relevant tools
▶ Easier integration and upgrades to new features
▶ Improved flexiblity to adapt to changing marketplace and rider demands
▶ New and enhanced tools to make informed and strategic operating decisions

Climb on board with the value leader in **complete** transit systems.
