

O N - B O A R D A N N O U N C E M E N T S

A sight to be heard.

Multi-sensory rider alerts for your transit vehicles.

In-vehicle announcement systems:

- ▶ LED screens
- ▶ LCD displays
- ▶ Ambient noise-sensing audio speaker systems
- ▶ Highly configurable triggers
- ▶ ADA-compliant solutions

Keep riders informed with simple text-based LED signage.

Leverage high-definition LCD displays to provide riders with announcements, route tracking, and other information.

Engage passengers with seamlessly integrated automatic audio and visual announcement systems that add a meaningful component to your on-board transit experience. Powered by SPOT's® intuitive messaging module, transit managers can quickly generate custom and canned announcements that accurately and reliably communicate critical stop and service message to riders.

Keep passengers in the loop with:

- ▶ Next stop announcements via speakers and displays through a single, easy-to-use interface
- ▶ Announcements that automatically trigger by GPS location or defined events, like doors opens or vehicle stops
- ▶ Driver-initiated ad-hoc announcements through our Mobile Data Terminal
- ▶ Custom geographic dialects and multiple language solutions through custom recorded audio
- ▶ Rich, full-color video capable LCD displays provide flexibility to present essential information and on-screen entertainment

Climb on board with the value leader in **complete** transit systems.
